PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology student at Davao del Norte State College with interests in software development, full-stack web development, mobile application development, artificial intelligence, computer vision, UI/UX, databases, and modern technologies. I enjoy building practical projects and continuously improving my technical and problem-solving skills.

CAREER OBJECTIVE

Seeking internship, entry-level, freelance, and collaborative opportunities where I can apply my IT skills, gain real-world experience, contribute to meaningful projects, and continue developing professionally.

EDUCATION

Bachelor of Science in Information Technology

Davao del Norte State College | Currently Studying

Areas of study: Programming, Software Development, Databases, Networking, Web Development, Mobile Development, Artificial Intelligence.

EXPERIENCE

Cash for Work — Davao del Norte State College

500 Hours | 2025

Completed 500 hours under the Cash for Work program, gaining practical experience in workplace responsibilities, documentation, assigned tasks, and office-related activities.

PESO / SPES Assistant

Public Employment Service Office

Gained workplace experience involving administrative support, documentation, file organization, and other assigned responsibilities.

PC Work — Panabo

Work Immersion

Gained hands-on experience with computer-related and printing tasks, including document printing, basic computer work, Photoshop layout work, and production-related activities.

PROJECTS

Native Flora Detection and Management System Using Computer Vision and Geoanalytics in Talaingod, Davao del Norte

Ongoing Capstone Project

Uses computer vision and geoanalytics for real-time identification and mapping of selected native flora species. Technologies: YOLO, Python, Flutter, Firebase, GPS/geolocation, and geographic visualization.

AI-Powered Sales Analytics Dashboard

Web-based analytics dashboard designed to present sales, revenue, customer, and product information through interactive visualizations and AI-oriented insights.

Additional Web/Mobile Development Projects

Developed or worked on projects involving web applications, mobile applications, databases, APIs, and UI/UX design.
